

# Agricultural Science Capstone Certification

## About this capstone

The **Agricultural Science** capstone is a comprehensive certification earned upon successful completion of the following required certifications. This structure validates a learner's knowledge and skills across the core areas of agricultural science and demonstrates readiness for advanced roles.

## Required certifications

- [Agricultural Science 1](#)
- [Agricultural Science 2](#)
- [Agricultural Science 3](#)

## Capstone description

The Agricultural Science capstone brings together multiple certifications to confirm well-rounded expertise. Learners who achieve this capstone have demonstrated competency in animal, plant, and soil sciences; agribusiness; natural resources; and food science technology. The modules progress from foundational agricultural literacy and career exploration to advanced principles such as genetics, nutrition, disease management, biotechnology, and sustainability. Together, the exams prepare learners for careers or further studies in agricultural disciplines, emphasizing leadership, management practices, and the vital role of agriculture in society.
