Digital Media Capstone Certification

About this capstone

The **Digital Media** capstone is a comprehensive certification awarded upon successful completion of the following required exams. This structure validates a learner's skills in graphic design, multimedia production, and interactive media—preparing them for entry-level positions in digital media fields while strengthening essential 21st-century skills.

Required certifications

- [Digital Media 1](#)
- [Digital Media 2](#)
- [Digital Media Advanced](#)

Capstone description

The Digital Media capstone assesses learners' ability to apply design principles and multimedia tools in creative, real-world contexts. Digital Media 1 introduces foundational concepts including design basics, typography, color theory, and related software. Digital Media 2 advances into interactive media development, spanning text, graphics, animation, and video production. The Digital Media Advanced exam validates mastery in planning, designing, and producing complex interactive media projects—demonstrating readiness for professional opportunities in multimedia and digital design. Together, these certifications ensure comprehensive preparation for careers in the fast-growing digital media industry.
